

# MicroPro®

MicroPro

Proven Reliable in Field Testing.

Treated Wood Process  
SCS CERTIFIED ENVIRONMENTALLY PREFERABLE  
SCS-EPP-01514 | SCS-EPP-01699

The MicroPro Treated Wood Process is certified under SCS's Environmentally Preferable Product (EPP) program based on Life-Cycle Assessment.

Environmentally Preferable Product

GREEN APPROVED

Visit [www.GreenApprovedProducts.com](http://www.GreenApprovedProducts.com) for details.

NAHB Approved

Approved for Aluminum Contact

Better Corrosion Protection

## Top Reasons Why

### Builders, Contractors, & Homeowners Use MicroPro® Pressure Treated Wood Products

- Long term field testing shows that MicroPro treated wood provides effective protection against fungal decay and termite attack.
- First Wood Treatment Process to Complete Life-Cycle Assessment Studies - The Osmose® MicroPro wood treatment process systems were analyzed by Scientific Certification Systems under an exhaustive environmental review process called Life-Cycle Assessment (LCA), in accordance with rigorous international standards set by ISO, the leading international standards setting organization. The MicroPro LCA studies are in compliance with ISO standards 14044 and 14025.
- NAHB Research Center, Green Approved - MicroPro treated wood products have been approved for points toward National Green Building Certification to the ICC 700-2008 National Green Building Standard.
- Lighter, more natural wood appearance.
- Improved painting and staining qualities.
- Better corrosion resistance for code-approved fasteners and hardware.
- End uses include interior and exterior above ground, ground contact, and fresh water immersion.
- MicroShades®, innovative micronized pigment color choices - pressure treated wood colors similar to redwood & cedar.
- Treated wood warranty programs (See warranty for details\*).
- Approved for aluminum contact.\*\*
- Building code compliant. ICC-ES Reports, ESR-1980 and ESR-2240.
