## **Osmose® Celebrates its 75<sup>th</sup> Anniversary**

Osmose is pleased to announce this year marks its 75<sup>th</sup> year of business. Founded in Buffalo, NY in 1934, Osmose is the oldest company of its kind in business today. Osmose is a diversified, imaginative and growing company with customers in over 70 countries worldwide.

Osmose, Inc., the wood preserving group, is the world's largest manufacturer of wood preservatives and wood protection products for the pressure treatment industry. The Osmose Utilities Services group provides electric and telecommunications companies with a broad range of infrastructure inspection, maintenance and rehabilitation services, and is the leading provider of utility data needed to support GIS and Smart Grid applications. The Osmose Railroad Services group is North America's leading railroad bridge inspection and rehabilitation specialty company equipped and staffed to design and build solutions for all types of wood, steel and concrete bridges.

Paul Goydan, President of Osmose, Inc., states, "We are proud of our long history and company's success that has been built on providing our customers with exceptional products and services by a dedicated team of professional individuals. All of us at Osmose are excited about the opportunities the future brings."
